

R1 - Rebar Cutters & Accessories

The solution to drilling rebar! The new drilling innovation from Armeg. A series of highly efficient cutters in a range of diameters to match the most popular anchor sizes. Driven by unique, dedicated water feed adaptors and extensions. Patented tip geometry and specialised grade of carbide enables multiple drilling such as steel and concrete. Increased penetration and tool durability is enabled by the precision machines clearways. Machined spanner flats allow rapid change of diameters and slug removal. Integral water feed adaptor supplies coolant to the cutting face, preventing heat generation and enabling longer tool life. Water coolant flushes away spoil material. The cutting action therefore is always new material. This results in improved penetration rates and effective cutting.

PRODUCT GROUP: A2

Part Number	Shank Length	Description	List Price	Barcode
CR12	100	12mm Re-bar Cutter	128.59	5022081025203
CR14	100	14mm Re-bar Cutter	141.46	5022081025210
CR16	100	16mm Re-bar Cutter	154.00	5022081025227
CR18	100	18mm Re-bar Cutter	166.87	5022081024176
CR20	100	20mm Re-bar Cutter	176.66	5022081025234
CR25	100	25mm Re-bar Cutter	192.61	5022081025241
CREXT	200	Extension Rod for Drive Adaptor	47.96	5022081025265
CRSDSAD	100	SDS+ Drive Adaptor	96.14	5022081025258
CRTHCON	200	Thread converter for 12mm & 14mm only	47.96	5022081025272
